

SHRUTHYY M B

shruthyymalathkar07@gmail.com | +91-8778711947 | linkedin.com/in/shruthyy-m-b-235baa283

PROFILE

Software Developer & AI Engineer with hands-on experience in Python, Machine Learning, Web Development, SQL, and NLP-based applications. Skilled in designing scalable solutions, building real-time AI systems, and developing user-centric web applications. Proven ability to deliver efficient, innovative projects through internships and academic work, with knowledge of data structures, OOP, and problem-solving. Passionate about emerging technologies and eager to contribute to dynamic software development teams.

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern - RETECH Solutions Pvt. Ltd. Chennai, India

- Designed and implemented an AI-powered language translation system using Neural Machine Translation (NMT) Models.
- Fine-tuned models on domain-specific datasets to improve translation quality and reduce response time.
- Integrated into real-time multilingual applications, boosting communication efficiency across diverse users.

WEB DEVELOPER - Vulture Lines Tech Management Pvt. Ltd. Chennai, India

- Designed and prototyped a user-centric E-Book website using Figma, HTML, CSS, and JavaScript.
- Optimized responsiveness and navigation speed, ensuring smooth interaction with minimal latency.
- Delivered a reliable prototype that improved user engagement and usability.

EDUCATION

Bachelor of Artificial Intelligence & Data Science - Dhanalakshmi College of Engineering Chennai, India	2022 – 2026
AISSCE - Narayana e-techno Chennai, India	2020 – 2022
AISSE - D.A.V. Public School Chennai, India	2019 – 2020

TECHNICAL SKILLS

Programming Languages: Python, SQL, HTML, CSS, JavaScript

Backend Technologies: Flask, Django, .NET, REST APIs

AI & Machine Learning: Supervised Learning, Unsupervised Learning, Regression, Classification, Clustering, NLP, Neural Machine Translation, Decision Trees, Random Forest, Support Vector Machine, K-nearest Neighbors(KNN), Naive Bayes, Feature Engineering, Model Evaluation

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Figma

Database: SQL, DBMS, MongoDB (Basics)

Core Skills: Data Structures, OOP Concepts, SDLC, Agile Methodologies, Test-Driven Development (TDD)

Python Libraries: NumPy, Pandas, Matplotlib, OpenCV, SciPy

Frameworks: Flask, Django

Deep Learning: TensorFlow, Keras, CNN, Transfer Learning, MobileNetV2

Soft Skills: Critical Thinking, Communication Skills, Teamwork & Collaboration

PROJECTS

- Multimodal Emotion Detection System** – Developed a real-time emotion detection system using NLP, OpenCV, speech recognition, and DeepFace.
- College Inquiry Chatbot** – Built a chatbot using Python and Flask for automated student query handling and real-time responses.
- Language Translation System** – Developed an NLP-based translation system for English to Tamil and Malayalam using pre-trained models.
- AI Travel Companion Application** – Created a travel planning application using Python and Streamlit with itinerary and budget recommendation features.

CERTIFICATIONS

- Celonis Academy - Process Mining Fundamentals
- TCS iON - Cyber Security
- Learntube AI - Data Analytics Assessment
- Bentley Education - Modeling of Building Environment
